ELSEVIER

European Journal of Operational Research 87 (1995) 739–741

EUROPEAN JOURNAL OF OPERATIONAL RESEARCH

Contents Volume 87

1 Logistic chain modelling (Invited Review)
P.A. Slats, B. Bhola, J.J.M. Evers and G. Dijkhuizen

21 Statistical validation of simulation models
J.P.C. Kleijnen

35 Simulating health systems: modelling problems and software solutions
H.T.O. Davies and R. Davies

45 Consequences of uncertainty in the analytic hierarchy process: A simulation approach
D. Paulson and S. Zahir

57 Improved heuristics for sequencing cutting patterns
B.J. Yuen

65 A heuristic procedure for the single-row facility layout problem
K. Ravi Kumar, G.C. Hadjinicola and T.-l. Lin

74 Multiple items procurement under stochastic nonstationary demands
A. Martel, M. Diaby and F. Boctor

93 An approximation to the continuous review inventory model with perishable items and lead times
H.N. Chiu

109 Graph theoretic relaxations of set covering and set partitioning problems
E. El-Darzi and G. Mitra

122 The determination of the optimal component input numbers for the completion of a single manufacturing order
M.G. Nicholls

132 Setup cost stability region for the multi-level dynamic lot sizing problem
J. Vörös

142 On solving a variation of the assignment problem
R.D. Armstrong and Z. Jin

148 Optimal design of syndicated panels: A mathematical programming approach
B. Golany, F.Y. Phillips and J.J. Rousseau

166 A special class parametric of knapsack problems: Analytic aids and heuristics
D.J. White

175 An expanding-core algorithm for the exact 0–1 Knapsack Problem
D. Pisinger

188 Stability analysis for a special interval cutting problem
S. Dempe and E. Müller

200 OR Software
ORSEP – Operations Research Software Exchange Program, *H.W. Hamacher (ed.)*
QHOPDM – A higher order primal–dual method for large scale convex quadratic programming, *A. Altman*

203 The capacitated plant location problem (Invited Review)
R. Sridharan

214 Optimal routing in a transportation network
K. Goczyła and J. Cielątkowski

223 Example application of the cognitive design procedure for an order pick system: Case study
C.S. Yoon and G.P. Sharp

247 PETAPS : A prototype decision support system for consumer product marketing and promotion
J.G. Davis and D. Sundaram

257 A mixed integer model of bidding strategies for outsourcing
K. Nam, A. Chaudhury and H.R. Rao

274 Assignment of a job load in a distributed system: A multicriteria design method
H. Lee

284 Single machine scheduling problem with fuzzy precedence relation
H. Ishii and M. Tada

289 Ramifications of tool magazine size on the makespan and routing flexibility of flexible manufacturing systems
Z.M. Mohamed
299 Impact of job-sequence on the down-time of a deteriorating flexible machine
A.K. Chakravarty and N. Balakrishnan
316 Optimal inventory policies under service-sensitive demand
R. Ernst and S.G. Powell
328 Column generation applied to linear programs in course registration
J.K. Sankaran
343 A hybrid heuristic for the generalized assignment problem
M.M. Amini and M. Racer
349 Simulation metamodel estimation using a combined correlation-based variance reduction technique for first and higher-order metamodels
J.D. Tew
368 A two-phase shortest path algorithm for networks with node coordinates
J. Lysgaard
375 Performance bounds for the effectiveness of pooling in multi-processing systems
S. Benjaafar
389 Evaluating bank branch location and performance. A case study
P.V. Boufounou

Operational Research in Europe – A Special Issue to Celebrate the 20th Anniversary of EURO

iii Preface
v Note by the Guest Editor
vii Contents
404 The founding of EURO: The Association of European Operational Research Societies within IFORS
H.-J. Zimmermann
408 EURO 1975–1995: A fruitful evolution J. Pierre Brans
415 EURO 20th Anniversary: . The prospective future
J. Krarup
424 OR in Europe: Facts about EURO member societies
C.P. Pappis
430 Operational Research in the Czech Republic
M. Manas
435 Operations Research and its practice in Finland – An update
H. Kivijärvi, M. Kuula and J. Wallenius
440 Operations Research activities in Germany
B. Fleischmann
445 OR practice in Greece: Status and challenges
C.P. Pappis and M. Dimopoulou
452 On the practice of OR in Hungary
Zs. Harnos, S. Komlósi, T. Rapcsák and T. Szántai
456 A review of OR practice in Iceland
S. Ólafsson
461 OR in Portugal: Past achievements and current perspectives
R. Guimarães and I. Themido
464 OR practice in South Africa
T.J. Stewart
469 OR application in Spain. A brief review
M.A. López and J.T. Pastor
471 A partial view of OR in Switzerland
D. de Werra and A. Hertz
474 Supporting real decisions: A review of OR practice in the UK
J.C. Ranyard
484 Strands of practice in OR (The Practitioner's Dilemma)
C.J. Corbett, W.J.A.M. Overmeer and L.N. Van Wassenhove
500 Operational research models in action, the result of international cooperation – A potpourri
R. Petrović, S. Guberinić, V. Batanović and D. Cvetković

507 Measuring macroeconomic performance in the OECD: A comparison of European and non-European countries
C.A.K. Lovell, J.T. Pastor and J.A. Turner
519 Planning of high school examinations in Denmark
M.P. Hansen and R.V.V. Vidal
535 Goal programming & data envelopment analysis (GoDEA) for target-based multi-level planning: Allocating central grants to the Greek local authorities
A.D. Athanassopoulos
551 Decision analysis interviews in environmental impact assessment
M. Marttunen and R.P. Hämäläinen
564 Aggregate planning and scheduling in the food industry: A case study
R. Tadei, M. Trubian, J.L. Avendaño, F. Della Croce and G. Menga
574 An intelligent system for US Coast Guard cutter scheduling
K. Darby-Dowman, R.K. Fink, G. Mitra and J.W. Smith
586 A case study in empty railcar distribution
S. Spieckermann and S. Voß
599 Risk analysis of catastrophes using experts' judgements: An empirical study on risk analysis of major civil aircraft accidents in Europe
E.S. Bigün
613 Distribution of gas cylinders
F. Fölsz, C. Mészáros and T. Rapcsák
624 Planning and performance in State-Owned Enterprises: A multidimensional assessment
N.S. Labroukos, S. Lioukas and D. Chambers
641 Assessing police forces in England and Wales using Data Envelopment Analysis
E. Thanassoulis
658 Case study based on a multi-period multi-criteria production planning model
D. Kalpić, V. Mornar and M. Baranović
670 A minimax assignment problem in treelike communication networks
R.E. Burkard, E. Çela and G.J. Woeginger
685 Multi-item inventory control: A multicriteria view
J.D. Lenard and B. Roy
693 Probabilistic combinatorial optimization problems on graphs: A new domain in operational research
M. Bellalouna, C. Murat and V.Th. Paschos
708 AMOS – A probability-driven, customer-oriented decision support system for target marketing of solo mailings
N. Levin, J. Zahavi and M. Olitsky
722 The design of a 0–1 integer optimizer and its application in the Carmen system
D. Wedelin
731 An application of a multi-objective programming technique to construction accuracy control of cable-stayed bridges
H. Nakayama, K. Kaneshige, S. Takemoto and Y. Watada
739 Contents Volume 87
742 Acknowledgment to Referees
747 Invited Reviews 1991–1995
749 Special Issues and Feature Issues 1986–1995
751 Keyword Index Volumes 80–87
758 Author Index Volumes 80–87
775 Book Review Index Volumes 80–87
